THE GCI HEALTHCARE NETWORK

GCI delivers services to more than 250 clinics and healthcare facilities throughout Alaska.

For more than 20 years, we have partnered with healthcare facilities across Alaska and the Pacific Northwest to help them achieve their connectivity goals. The GCI Healthcare Network provides services that allow facilities to securely and reliably exchange health-related information.

We serve as our customers' trusted partner, helping adopt new technologies and managing their networks so they can focus on delivering healthcare. No other provider can match our combination of technical and clinical expertise, skill in providing custom medical network solutions, and passion for bringing telehealth to Alaska and the Pacific Northwest.
